## Message from the editor

Welcome to the June edition of the TC10 newsletter, which includes information about :

- GREC 2013,
- the IAPR/ICDAR 2013 Awards,
- the proposal to Host ICDAR 2017.

We are also pleased to announce the TC-10 twitter account.

We can use this new way of communication for fast and short announcements.

## IAPR/ICDAR 2013 Awards

The IAPR Technical Committees on Graphics Recognition (TC10) and Reading Systems (TC11) are pleased to announce the recipients of the IAPR/ICDAR 2013 Awards:

<http://www.icdar2013.org/program/awards>

- The IAPR/ICDAR Outstanding Achievements Award is presented to **Prof. Réjean Plamondon**;

- The IAPR/ICDAR Young Investigator Award is presented to **Dr. Dimosthenis Karatzas**.

Congratulations to the awardees!

## Proposal to Host ICDAR 2017

INTERNATIONAL CONFERENCE ON DOCUMENT ANALYSIS AND RECOGNITION (ICDAR)  
PROPOSAL TO HOST ICDAR2017

-----

The ICDAR Advisory Board has received, until now, one proposal to host the 14th International Conference on Document Analysis and Recognition, to be held in 2017 (ICDAR2017).

The bid to host ICDAR 2017 in Kyoto, Japan (Koichi Kise, and al.) is available on the TC10 web site

[Bid to host ICDAR 2017 in Kyoto](#)

Proposal(s) will be examined by the ICDAR Advisory Board. Valid bids will then be presented at the TC10/TC11 joint meeting held during ICDAR2013, where a ballot will be conducted to determine the winning bid.

### **ICDAR Advisory Board**

Prof. Jean-Marc Ogier (Chair, TC10)  
Prof. Koichi Kise (Chair, TC11)  
Prof. Simone Marinai (Chair, IAPR C&M Committee)  
Prof. Andreas Dengel (Past Organiser)  
Prof. Daniel Lopresti (Past Organiser)

## GREC 2013 : 10th IAPR International Workshop on Graphics Recognition

**GREC 2013, the Tenth IAPR International Workshop on Graphics Recognition**, organized by IAPR TC-10 (Technical Committee on Graphics Recognition), will be held at Lehigh University (Bethlehem, PA, USA) on August 20-21, 2013, just before the 12th International Conference on Document Analysis and Recognition (ICDAR).

Transportation shuttle buses will be arranged between GREC and ICDAR.

The program, dedicated to the broad spectrum of recognition within graphical document images and related subjects, is organized in a single-track 2-day workshop. It will comprise several sessions dedicated to specific topics related to graphics in document analysis and graphic recognition. For each session, there will be an invited presentation describing the state of the art and stating the open questions for the topic of the session, followed by a number of short presentations that will contribute by proposing solutions to some of the questions or presenting results of the speaker's work. Each session will be concluded by a panel discussion.

Selected papers will be published in post-conference proceedings in the Springer Lecture Notes in Computer Science series.

Since its beginnings the GREC workshop series has provided a unique atmosphere, fostering a very high level of interaction, discussion and exchange of ideas (distinctly different from classical conference-like presentations) while providing high quality and good impact post-proceedings. It therefore forms an excellent opportunity for researchers and practitioners at all levels of experience to meet colleagues and to share new ideas and knowledge about graphics recognition methods. Graphics Recognition is a subfield of document image analysis that deals with graphical entities in written documents, engineering drawings, maps, architectural plans, musical scores, mathematical notation, tables, diagrams, etc.

GREC 2013 will continue the tradition of past workshops held at Penn State University (USA), Nancy (France), Jaipur (India), Kingston (Canada), Barcelona (Spain), Hong Kong (China), Curitiba (Brazil), La Rochelle (France) and Seoul (South Korea).

### **ACCEPTED PAPERS and REGISTRATIONS**

The review process is completed: 27 accepted papers. Check the list here:

<http://grec2013.loria.fr/GREC2013/node/26>

Authors can upload a modified/corrected version of their paper until June 16.

Papers should respect the ICDAR 2013 format, and be no longer than 6 pages.

Please connect to the GREC EasyChair website to upload a new version of your paper.

Also, be aware that to be presented at the workshop, your paper should have at least one of its authors registered at the Full or IAPR level.

## Call for Datasets

We would like to remind you that the TC10 and TC11 Web sites always welcome contributions of new datasets or other resources related to the community. We would like to encourage all the TC10 and TC11 members to submit such material to the TC10 and TC11 for archiving. The availability of datasets, ground truth and

performance evaluation tools online is not only good practice, but also a requirement for a field to progress.

We would like make a special request to the organizers of recent and future competitions. Independently of whether you have the competition datasets and evaluation tools available through other Web sites, please consider archiving them with TC10 / TC11 as well. Web sites often go off-line and useful resources are frequently lost forever.

Please check the TC10 site on information about how to submit datasets for archiving.
