- Message from the Editor -----

*I hope that 2011 will be a very rich year for you, your family, and colleagues!
Welcome to the first edition of our TC-10 newsletter on 2011. First of all, as
the newly appointed TC10 Chair team, we would like to thank Liu Wenyin and Josep
Lladós for their great leadership and efforts for our community in the last
four years.*

*To minimize generating the carbon-dioxide caused by electronic redundancy,
the minimum-core information will be provided. This edition briefly brings to you
the key information of the calls from coming events of GREC 2011 in Seoul
and ICDAR 2011 in Beijing.*

Any suggestions and comments for this newsletter and TC10 are welcomed.

Jaehwa Park, ICPR-TC10 Newsletter Editor.
jaehwa@cau.ac.kr

Reminder :

*This newsletter is currently sent to the members of a mailing list built over
time by the TC10 Teams.*

*In order to make easier the management of the mailing list, in few months the
newsletter will be sent only to the registered members of the TC10 website.*

*So if you are not registered yet, please visit the IAPR TC10 website <http://iapr-tc10.univ-lr.fr>
as soon as possible to register.*

Thanks !

- Greetings from TC10 Team Members -----

Jean-Marc Ogier, TC 10 Chair

In 2011, as a TC 10 chairman, my task will be to contribute to the animation of graphic recognition community and to render it as interactive as possible, so that collective scientific progress could be reached.

It will also consist in trying to work and animate the TC 10 management team, so that TC 10 could take a large benefit of our investigations. GREC 2011 will be one of the major event of our community, associated to different competitions that should be organized during this even which will be held in Seoul, Korea.

In association with TC 11, we will contribute to the doctoral 2011, the aim of which is to provide some feedbacks for our Phd students research progresses. Our intention is also to increase the sharing of information through TC 10 Website. We hope that 2011 will be a very nice year for each of you, from a professional and a personal point of view !

Bart Lamiroy, Dataset curator.

As a Dataset curator my task will be to set up, animate and provide services to the community for collecting, reviewing and distributing high quality datasets, promoting their use and assisting contributors in shaping and organizing their experimental setups to the benefit of high quality, reusable research in the Graphics Recognition domain. These efforts will be coordinated with other TCs. Please consider this the beginning for an ongoing call for dataset contributions or requests. Further details will be given in the next newsletter.

I also grab the opportunity of this newsletter to wish you all the best for 2011.

Jean-Christophe Burie, Webmaster

The aim of the TC10 website is to become the main communication tool of the graphic recognition community. My task will be to create and manage the information content. However to feed the website, I need you. So you are invited to send me all relevant information (PhD and Postdoc positions, news, call for papers, ...) that you want to share with the community.

One of the objectives of the TC10 team is also to make available different resources (thesis, slides, ...) to help new students and researchers in graphic recognition to improve their knowledge. So, if you have any resources you want to share, please contact me through the website.

To conclude, dear readers, I wish you a very happy and prosperous New Year.

- Dates and Deadlines -----

- **GREC 2011** Seoul, Korea. September 15-16, 2011

- Abstract Due: May 15, 2011

- **ICDAR 2011** Beijing, China. September 18-21, 2011

- Tutorial proposals due: January 20, 2011
- Competition proposals due: January 20, 2011
- Manuscript due: March 1, 2011

- Call for Competitions -----

As at the past GREC editions, competition to evaluate the performance of different graphic document analysis algorithm classes will be organized. To propose a competition, or to participate to organized competitions, please contact TC 10 Chair (jean-marc.ogier@univ-lr.fr)

- Coming Events -----

■ GREC 2011

The 9th International Workshop on Graphics Recognition (GREC2011), organized by IAPR TC-10, will be held

at the Chung-Ang University, Seoul, Korea on September 15-16, 2011,

just before the 11th ICDAR 2011.

Abstract Due: May 15, 2011

Acceptance Notification: June 20, 2011

Final Manuscript Due: July 24, 2011

More Details please visit at <http://grec2011.cau.ac.kr>

One valuable note: the air-fare of direct to Beijing or route via Seoul(ICN) is the same at most airlines!

■ ICDAR 2011

The 11th International Conference on Document Analysis and Recognition (ICDAR 2011), sponsored by IAPR TC-10 and TC-11, will be held

*at BEIJING FRIENDSHIP HOTEL, Beijing, China
on September 18-21, 2011.*

Manuscript due: March 1, 2011

Acceptance notification: June 1, 2011

Camera-ready manuscript due: July 1, 2011

Advance registration due: July 1, 2011

Workshop proposals due: November 30, 2010

Tutorial proposals due: January 20, 2011

Competition proposals due: January 20, 2011

More Details please visit at : <http://www.icdar2011.org>

- Announcements and Notes -----

■ **Doctoral Consortium at ICDAR 2011**

The leadership of IAPR TC-10/TC-11 is considering organizing a Doctoral Consortium in conjunction with ICDAR 2011. Please complete the following short survey which will help guide us in this investigations;

<http://www.surveymonkey.com/s/NR33JXZ>

■ **Open Ph.D. Position**

The Pattern Recognition and Document Analysis Group (DAG) on UAB in Spain has open positions for Ph.D program. More details please contact

Ernest Valveny: ernest@cvc.uab.es

Campus UAB, Edifici O

08193, Bellaterra

Barcelona, Spain

Tel. +34 93 581 1863

Fax. +34 93 581 1670

■ Anyone who are intersted in Graphics Recognition are welcomed to visit TC-10 web site and register!
