DAR Strategy and TC10/11 meeting (ICPR)

Announcements:

****
** Strategic plan of the Document Analysis and Recognition community
****

As we introduced in the last newsletter, we have been discussing the future of our community at the "Future of Document Analysis and Recognition Workshops" at ICDAR 2017 and 2019. During 2020, we set up a Task Force to continue the discussions towards the definition of the Strategic plan of the Document Analysis and Recognition community. We gave updates on this activity at DAS and ICFHR 2020.

We are glad to announce that all the information is finally ready at the website: https://sites.google.com/view/darstrategy

You will find detailed information of the activity, and you will find google forms and kialo discussions on different actions. All members in the community are very welcome to comment, suggest and provide feedback.

Alicia Fornes and Dimosthenis Karatzas

****
** TC10/11 meeting at ICPR
****

Since ICPR will take place as a virtual conference this year, we have decided to decouple the TC10/11 meeting from the conference and hold it separately the week after ICPR as a virtual meeting. This way the TC10/11 meeting will not be bound to the timing of ICPR coffee breaks, while it will be open to everyone in the community.

You are all invited to attend the next TC10/11 meeting that will take place online on Wednesday, January 20, 12:00 – 13:00 CET.

The link for connecting to the online meeting is:

The meeting is open to all members receiving this newsletter.
